**Subject:** Funds for education

As an independent computer professional in North Carolina, I would like to add my name to the list of those who've expressed the gravest disappointment at the acceptance by my state and others of a settlement that does not go far enough to protect innovation, consumers, and entrepreneurs from Microsoft's continuing anti-competitive practices. It is my hope that the Attorneys General of the dissenting states (California, Iowa, Connecticut, et.al.) will succeed in securing appropriate remedies.

Paul Smith
